## Profile

Board-level executive with 25+ years of international leadership across MedTech, pharma, and digital health. Combines P&L ownership, governance experience, and deep expertise in digital transformation, AI, and data platforms. Proven track record in scaling innovation, leading complex organizations, and driving sustainable growth in highly regulated environments.

## Core Value to Boards

- Digital & AI Transformation in regulated industries
- P&L leadership and strategic growth execution (€100M+ scope)
- Governance across international and regulated markets (MDR, FDA, GDPR)
- M&A, portfolio strategy, and integration
- Organizational transformation and talent strategy

## Selected Experience Highlights

- **CTO, Managing Director & Supervisory Board Member +P&L Responsibility, ADG Group (Phoenix Pharma):** Led technology, product, and operations; defined and executed group-wide transformation strategy including AI platform, cloud transition, and M&A integration.
- **Global VP Digital Health, BIOTRONIK:** Developed digital health strategy and led global teams across AI, data, and service platforms.
- **Director Roles, Fresenius Medical Care:** Led €200M+ business segment and established marketing, analytics, and digital health capabilities.

## Board & Advisory Focus

Boards undergoing digital transformation without governance fluency face execution risk. I close that gap — with P&L ownership, regulatory experience, and transformation delivery at scale.
